REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Claims 1-14 recite a semiconductor memory device comprising a memory cell array; a read clock generation circuit; a write clock generation circuit; a read pulse-width adjustment circuit provided in the read clock generation circuit for adjusting the pulse width of the read clock signal generated by the read clock generation circuit and a write pulse-width adjustment circuit provided in the write clock signal generation circuit for adjusting the pulse width of the write clock signal generated by the write clock generation circuit, wherein the pulse width of the read clock signal and the pulse width of the write clock signal are adjusted individually.

The prior art does not teach or suggest the read pulse-width adjustment circuit and the write pulse-width adjustment circuit, wherein the pulse width of the read clock signal and the pulse width of the write clock signal are adjusted individually. Therefore, the application is in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Huan Hoang whose telephone number is (571) 272-1779. The examiner can normally be reached on Mon-Fri 8:30AM-5:00PM.
